Profile

I'm a Frontend Developer with expertise in React.js, JavaScript, HTML, CSS, and Tailwind CSS. I specialize in building responsive, interactive web applications. My project PixelFlow demonstrates my ability to create dynamic platforms with search, filtering, and favorites management using Vanilla JavaScript and styled with Tailwind CSS. I'm eager to start my career and contribute to innovative web development projects.

Skills

- React.js
- Javascript (es6+)
- Css3
- Html5
- Tailwind css
- Api integration
- Git
- Npm
- Gsap
